### Important Information:

- Warning devices are strictly regulated and governed by Federal, State and Municipal ordinances. These devices shall be used ONLY on approved vehicles. It is the sole responsibility of the user of these devices to ensure compliance.
- DO NOT install this product or route any wires in the Air Bag Deployment Zone. Refer to your vehicle Owner's Manual for the location of any air bag deployment zones.
- DO NOT connect this device to a strobe power supply. This product is self-contained and does not require an external power supply.

## INSTALLATION

### LIGHT-HEAD

The light head should be center mounted (approximately along the center line of the vehicle) allowing following drivers to clearly see the light head. Light-head can be mounted inside or outside of the rear window or surface mounted to the rear body of the vehicle. Take care not to mount the light-head where human activities might jar and alter the alignment. Both light head and control module have mounting holes. Mounting hardware is provided for the light head. GHOST Single LED Mini Light has 3 installation options: Permanent Mount, Adhesive Mount with Super Duty Automotive Grade 3M Tape or Edge Mount Bracket.

For other light head options see our web site.
