

GHOST® SPOT LIGHT, MULTI-MOUNT

EGHSTS1(x) - Black EGHSTS1(x)W - White

Important Information: -

- DO NOT install this product or route any wires in the Air Bag Deployment Zone. Refer to your vehicle Owner's Manual for the location of any air bag deployment zones.
- DO NOT connect this device to a strobe power supply. This product is self-contained and does not require an external power supply.

INSTALLATION:

- 1. **Screw Mount** Establish a position on the vehicle. Use the mounting slots as a template to mark hole locations. Drill a hole using a #27 drill bit. The Torx screws provided are self-tapping.
- 2. Adhesive Mount To obtain optimum adhesion, the bonding surfaces must be well unified, clean and dry. Peel one side of each adhesive mounting patch provided. Apply each rectangular patch to the bottom of the GHOST housing. Position the GHOST on the vehicle and mark 2 edges of the location using tape. Peel the remaining paper from the adhesive patch and carefully position the light using the tape template. Press down on housing firmly to insure good adhesive contact. Important: Apply carefully; adjustment is not possible after the adhesive bonds. Ultimate strength of adhesive is achieved after 24 hours.
- 3. 'U' bracket Open the hood or trunk that will be the attachment surface. Place the rubber pad provided on the surface, insuring that the lower lip is on the edge of the sheet metal. Fit the 'U' bracket to the back of the GHOST light base, nesting the bracket holes with the pins on the light base. Slide the assembly onto the rubber pad. Tighten the four set screws.

Loosen the two #10 TORX screws on the back of each housing to adjust the angle of the GHOST. After adjustment, tighten the TORX screws.

WIRE HOOK-UP TABLE	
WIRE COLOR:	CONNECT TO:
RED	+10-30Vdc
BLACK	Ground (-)
WHITE	+10-30Vdc

OPERATION:

WIRE CONNECTIONS

- 1. Connect the GHOST BLACK wire to a good, convenient ground.
- Connect the GHOST RED and WHITE wire to one side of a user supplied on/ off switch. Connect the other side of the switch, through a 3Amp fuse, to a source of +10-30Vdc. Both RED and WHITE wires MUST be connected to power.

NOTE: The GHOST is a factory sealed unit that CANNOT be serviced in the field. Any attempt to gain access to the GHOST unit will most likely cause permanent damage and void its warranty.

TECHNICAL SPECIFICATIONS	
Overall Dimensions:	4.0"L x 0.88"H x 1.75"D
Input Voltage Range:	10-30Vdc
Current Consumption:	0.45A @ 12.8Vdc 0.23 @ 25.6Vdc
# of LEDs:	6 Generation 3 LEDs
Operating Temperature:	-40° to +65° C

This product contains high intensity LED devices. To prevent eye damage, DO NOT stare into light beam at close range.
